Group A, B: Listen and read about text “ Weather and seasons ”

Everyone knows that there are four seasons in a year: spring» summer, autumn and winter. Each of them lasts 3 months.

Spring comes in March and ends in May. It often rains in spring, especially in April.

Summer is the hottest season in the year. It begins in June and ends in August. In summer the sky is clear and cloudless. The days are long and the nights are short and warm. Summer brings fruits and vegetables. It is pleasant to spend this season by the seaside or somewhere in the country.

Autumn months are September, October and November. The days are becoming shorter, the sun loses its force. It often rains. It is the season of harvesting.

Winter lasts three months as well: December, January and February. It is getting colder day by day. The sun shines rarely and it snows often. But everything looks so pretty covered with snow.

So in every season there are bright and dark sides. But we must be thankful together whatever the weather.

**III. Негізгі бөлім. Қызығушылығын ояту.**

«Миға шабуыл» Сұрақ жауап

What do you see in the picture? What is the weather like today? Is it cold outside? Is it hot outside? Beautiful weather, isn't it?
