4. The future perfect tense in the past	He said that he would have given an English book.

Scarlet fever

Scarlet fever is an infectious disease. We can often meet this disease in children and only sometimes in grown-ups.

The disease passes from one person to another through the nose and mouth. The beginning of the disease is quick. The patient has a sore throat, fever, headache and he often vomits. The face is flushed and the skin feels hot and dry. The temperature rises quickly on the first day and remains high for a few days.

The rash appears on the second day. After the temperature falls the skin begins to peel. We must isolate the child with scarlet fever and put him in bed. When the temperature is high the nurse gives him fluid diet and when the temperature falls she gives him nourishing food.

4. Жаңа сабақты бекіту — New fixing of a lesson

1. Scarlet fever - скарлатина
2. to pass - переходить
3. through - через, сквозь
4. to vomit - страдать рвотой
5. to remain - оставаться
6. rash - сыпь
7. to peel - шелушиться
8. to isolate - изолировать
9. nourishing — питательный
